21 **Re: 3GPP2 and IPv6**  
22

23  
24 Dear Latif,  
25

26 Thank you for your liaison dated September 28, 2004 regarding adoption of IPv6 in 3GPP2.  
27 IPv6 support has been part of 3GPP2 Specifications since September 2002, and support for IPv6  
28 capable devices is currently included in the following published documents:  
29

- 30
- 31 ■ C.S0016-A: Over-the-Air Service Provisioning of Mobile Stations in Spread Spectrum  
32 Systems
  - 33 ■ C.S0023-A: A Removable User Identity Module for Spread Spectrum Systems
  - 34 ■ C.S0040-0: IP-based Over-The-Air Handset Configuration Management (IOTA HCM)
  - 35 ■ X.S0011-C: cdma2000 Wireless IP Network Standard
  - 36 ■ X.S0013-0: All-IP Core Network Multimedia Domain
  - 37
  - 38
  - 39

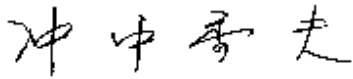

40 In addition, we are in the final stages of development of the following documents that also  
41 include IPv6 support:  
42

- 43
- 44 ■ IP-based Over-The-Air Device Management (IOTA DM) (to be published as C.S0064-0).
  - 45 ■ Broadcast and Multicast Service in cdma2000 Wireless IP Network (to be published as  
46 X.S0022)
  - 47

48 3GPP2 is currently enhancing the X.S0011 series of specifications to include Mobile IPv6  
49 support. When completed, the results of this development will be published as X.S0011-D.  
50

51 Please do not hesitate to contact me or my successor as 3GPP2 Steering Committee Chair for the  
52 2005-2006 term, Dr. Y.K. Kim, if you need further details.  
53
